

Traditional Moroccan Hammam with Massage

Enjoy two hours of body care in a warm room where we exfoliate and pamper your skin with black soap with eucalyptus and a hydrating treatment with a Ghassoul mask with aromatic plants while you take a hydrating foot bath.

You will complete this experience with a relaxing or stimulating massage with argan oil which will hydrate your body and transport you to Moroccan culture and traditions of body and spiritual care, and finally nothing like a glass of mint tea to fill the pleasure.
